

Studentische Hilfskraft

Referenz Nummer SA_2019_2

Das Mercator Research Institute on Global Commons and Climate Change (MCC) in Berlin sucht zum nächstmöglichen Zeitpunkt eine studentische Hilfskraft zur Unterstützung in einem spannenden wissenschaftlichen Projekt zum Kohleausstieg. Wir untersuchen mögliche Effekte eines Kohleausstiegs auf für betroffenen Beschäftigten und Regionen.

Ihre Aufgaben:

- Datenaufbereitung von Arbeitsmarktdaten und Regionaldaten
- Hilfe beim Programmieren von numerischen Modellen
- Literaturrecherche

Als ideale/r Bewerber/in haben Sie:

- Erfahrung in der Aufbereitung von Mikrodaten, idealerweise mit Stata
- Interesse an empirischer Forschung
- Erfahrung im Programmieren, zum Beispiel mit Matlab oder R
- Spaß an kooperativem Arbeiten in angenehmem Umfeld
- Interesse an Fragen des Klimawandels und Just Transition

Was wir bieten:

- Mitarbeit in einem jungen Team mit interessanten und hilfsbereiten Kolleg*innen
- Mitwirkung an Forschung und Politikberatung zu einem hochaktuellen Thema
- Flexible Arbeitszeiten
- Ideale Rahmenbedingungen für die Vorbereitung auf eine Masterarbeit
- Zahlung nach Tarifvertrag (brutto 12,50 € /Stunde)
- Ein zentral gelegener Arbeitsplatz in ruhigem und kreativem Umfeld

Die Stelle ist zunächst für 6 Monate befristet mit 40 Stunden/Monat.

Bei Rückfragen wenden Sie sich gern an haywood@mcc-berlin.net.

Bewerbungen werden ab 28. Februar 2019 gesichtet bis die Stelle besetzt ist. Bitte senden Sie einen Kurze Lebenslauf und ein Motivationsschreiben per E-Mail an:

Luke Haywood, haywood@mcc-berlin.net

Über das MCC

MCC was founded in 2012 by Stiftung Mercator and the Potsdam Institute for Climate Impact Research (PIK) and since 2014 it is affiliated with the Technical University (TU) Berlin. Our research is carried out in seven working groups and one special task force and it addresses the grand challenges of climate change and of governing the global commons. Our research is rooted primarily in economics and other social sciences. We provide scientific policy advice and aim to identify policy-relevant solutions. Cooperation with high-profile international partner organizations provides a network of excellence and foster the high quality of the research at MCC. Within a few years, MCC has established itself prominently in the climate policy research landscape, ranked as No. 1 of climate think tanks in Europe. For more information about the institute, please visit www.mcc-berlin.net.

Research Assistant

Referenz Nummer SA_2019_2

The Mercator Research Institute on Global Commons and Climate Change (MCC) in Berlin is looking for a research assistant to support an exciting scientific project on the German coal exit, an important part of German climate policy. We are investigating the effects of a coal exit on affected workers and regions.

Your tasks:

- Data work using employment data and regional data
- Help with programming of numerical models
- Literature reviews

The ideal candidate will

- have some experience in work with microdata, ideally using Stata
- show a strong interest in empirical research
- have experience in programming, for example with Matlab or R
- enjoy working with others in a cooperative environment
- be motivated to address climate change and promote a just transition

What we offer:

- a young team with interesting and supportive colleagues
- a research project with immediate policy implications in an area of great relevance
- flexible working time
- perfect conditions for the preparation of a Master thesis
- Payment at union rates (brutto 12,50 € /Stunde)
- A centrally located workplace in Berlin, calm and creative.

The position is limited to 6 months in the first instance, with 40 hours per month.

For further enquiries, do not hesitate to contact haywood@mcc-berlin.net.

Applications will be reviewed from 28th February until the position is filled.

Please send a short CV and letter of motivation by email to:
